

BBVA Bank Dispersion **ByDintec** Add-On

Country: Mexico

At **Dintec** we have multiple software tools that help ensure the best organizational operation.

The development "**BBVA Bank Dispersion ByDintec Add-On**" consists of the automatic generation of a .txt file with the bank transfers to the same bank, international banks, and other banks. This format should be uploaded to the **BBVA** platform to generate payment dispersion, this function permits having better efficiency in managing payments and transfers to suppliers.

With the **BBVA Bank Dispersion ByDintec Add-On**, you can streamline your payment control and format generation process, complete with execution verification, all from within the **SAP ByDesign** system.

What does this Add-On include?

1. The ability to generate .txt files for easy data processing.
2. Execution controls and filters for efficient operation management.
3. The capacity to produce physical receipts for tangible record-keeping.

The benefits of the BBVA Bank Dispersion ByDintec Add-On are many:

Automation of the payment process

Notification feature to inform your suppliers about payments being made, via email or SMS message.

Facilitation of your reconciliation process by providing detailed records of each operation.

Identification of different types of payments

The ability to handle multiple currencies

Enhanced information security, ensuring the safety of your data.

Flexible payment hours for convenience and efficient cash flow management.

Different charge methods to your account, such as a single charge for all payments, one per payment file, or one for each payment applied.

Why Choose Dintec?

Dintec is a beacon of assistance for our clients, helping them utilize, optimize, and expand their **SAP Business ByDesign** solutions. Additionally, we proudly bear the distinction of being the first partner to achieve **SAP Recognized Expertise in SAP Business ByDesign**.
